

Version Information of Marine Products

1 January 2026

****Notice****

Software updates include functionality improvements and security updates. If you need a software update, please contact our service department to request the update procedure. For information on how to check the currently installed software version on your equipment, please refer to the equipment's instruction manual.

Please note that applicable software updates may vary depending on the equipment's installation date, operating environment, and other factors. For details, please refer to the information in the table.

The information provided (such as equipment, software version, security version, release date, etc.) is current as of the time of publication. Please note that the contents are subject to change without prior notice.
